Rear doors and portal

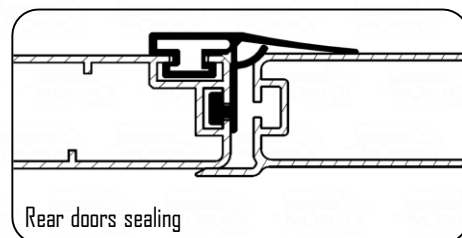

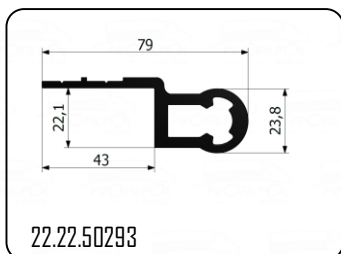

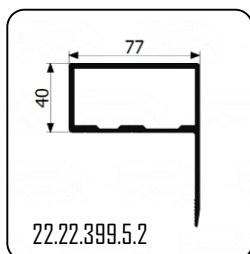

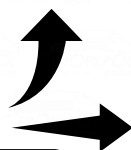

Rear flap was designed for boxes with rear lift platform. Thanks to the special hinge profiles the construction is elegant and rain protected.

Rear portal made of aluminum.

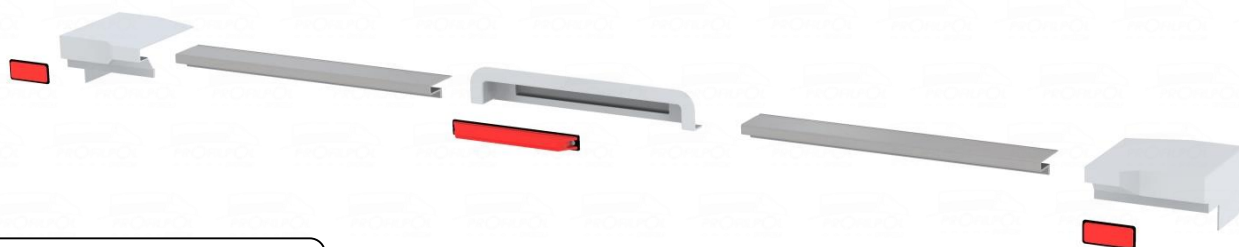

Rear doors are opening up to 270°. Inox hinges and locks are providing good look and durability.

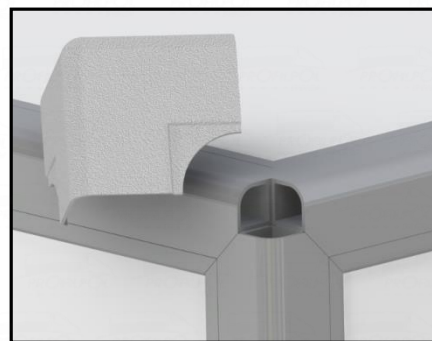

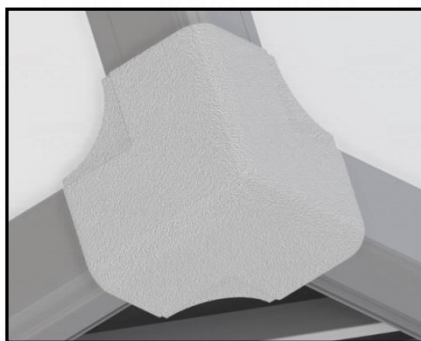

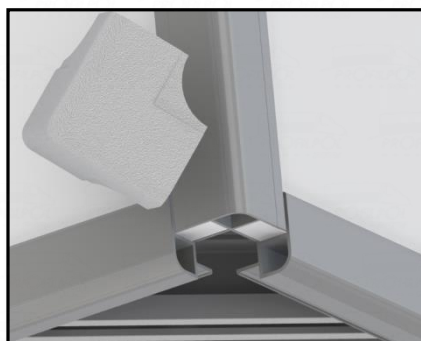

Portal overlap

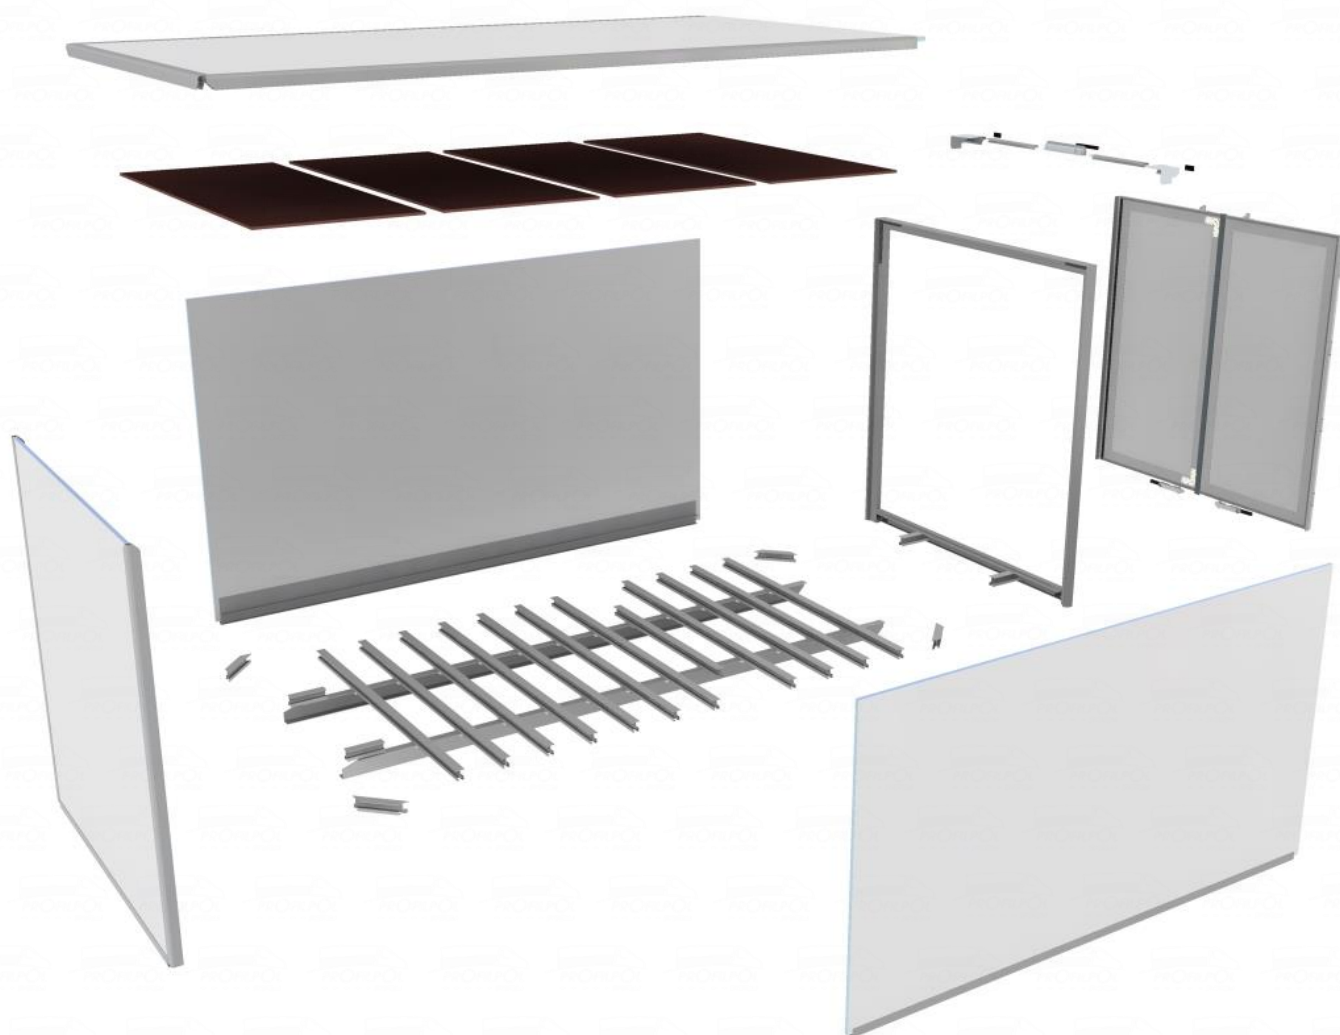

Portal overlap for rain protection. Equipped with light mounting.

Elegant corner finish with caps.

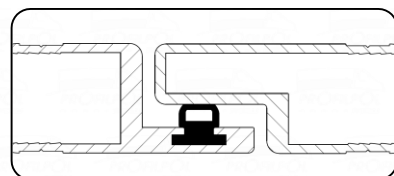

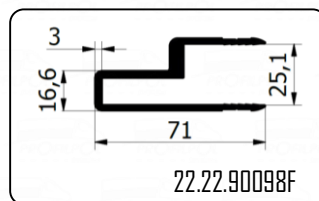

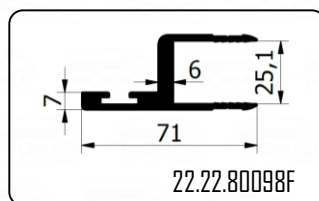

The kit consists of all necessary profiles, frame profiles included, cut to the exact length, cut XPS panels, clamps and screws. Optional cut plywood is available.

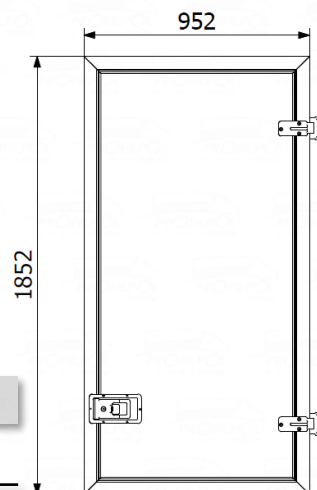

It is possible to order pre assembled box kit- with glued profiles into panels, preassembled frame, portal and doors.

Side doors

The side doors are also available as upgrade kit.
